

CYL 73rd Anniversary and Moon Festival Celebration

Since the establishment of the Chinese Youth League since 1939, all the members have made great contributions to the friendship exchanges between China and Australia, consolidation of the overseas Chinese from all walks of life as well as providing community services and so on. Now, the Chinese Youth League are making even greater efforts with other Chinese communities to try to build up a brand new community centre, offering much better services to meet the requirements of support to sports, environmental protection and artistic performances.

In order to celebrate the 73rd Anniversary of the Chinese Youth League and the Chinese traditional festival – Moon Festival, our members will get together for lunch and enjoy colourful performances. We are looking forward to your presence.
